

Fast Facts

Pola Power® Series

TT Electronics Pola Power® Connectors are designed to specifically meet the continuing demand for more power. Whether it's for power distribution for electric drive vehicles or air conditioning units, TT Electronics makes the connection.

The Pola Power® connector range will be approved for use on Rail and Military vehicles and can be qualified to suit other applications.

APPLICATIONS

- Power distribution
- Air conditioning
- Power
- Super-accumulators
- Gearbox
- Batteries

MARKET SEGMENTS

- Military vehicles
- Power distribution
- Rail vehicles
- Green energy

OUR ADVANTAGE

- Design capability to customise standard products
- Alternative plating materials
- Cable assembled versions

FEATURES

- Finger proof design
- EN45545-2 compliant
- Quick disconnection
- RoHS compliant
- 360° screening
- Rated up to 1000Amp
- Multiple keying options
- Sealed to IP67
- Small space
- 500 mated cycles
- Straight and 90° options
