Dear Valued Customer,

TT Electronics-IRC is committed to comply with regulatory compliance efforts and continues to monitor potential safety, health, and environmental impact of our products. We work with our suppliers to monitor impact on chemicals, preparations and articles supplied to us that are used to make our products that will meet California Proposition 65 standards.

California Proposition 65, known as the Safe Drinking Water and Toxic Enforcement Act of 1986, establishes a list of chemicals which the state of California's risk assessment process has determined to present a risk of cancer, birth defects or other reproductive harm. It is also to inform citizens about exposure to such chemicals.

All standard fixed resistor products manufactured by TT Electronics-IRC, including associated packing materials, do not require a California Proposition 65 warning label. This statement is based on the current list of Proposition 65 at the date shown above.

Important note: lead-bearing and lead-free versions of our devices are available. Customers are required to request lead-free terminations to meet Proposition 65 requirements

Customer Cal/Prop 65 Statement

Note that this declaration is made in good faith but the standard Terms and Conditions of IRC-
International Resistive Company take precedence over this declaration and no additional liability is accepted

Joe Alvirde, Quality Manager

Resistors Business Unit, TT Electronics-IRC
