

Water Meter

DS1015

Features:

- Single port dedicated for monitoring pipeline flow
- Direct reading for on-site inspection
- Pulse output optional
- Inviolable, no reset

Description:

Designed for use with clean and clear water to 40°C, this range of water meter provides measurement of water flow through a mechanical total counter. They are autonomous elements which do not require power supply.

Applications:

- Water flow measurement

Accuracy	2% FSD over 95% of flow range
Material	Brass body
Pressure	10/16 bar max
Temperature	Temp max 40°C
Wetted parts	Drinking water approved (75/33/EEC)
Installation	Horizontal or vertical
