

# Precision, Incorporated Corporate Quality Policy

Precision's goal is to be a global leader in providing magnetic components, value added assemblies and other related products and services.

We are committed to comply with customer as well as statutory and regulatory requirements and to maintain the effectiveness of our Quality Management System.

Through our QSD continuous improvement programs, we are dedicated towards achieving a high level of customer satisfaction and product quality focused on:

**Quality**    **Service**    **Delivery**
