

## REACH Statement

TT Electronics IoT solutions is fully aware of the requirements of REACH, the EU Regulation on the Registration, Evaluation and Authorisation of Chemicals and the dates by which various activities must be implemented.

TT Electronics IoT solutions has conducted verifications and to the best of our knowledge and belief none of the articles that we sell intentionally contain any of the Substances of Very High Concern (SVHC's) currently on the candidate list in concentrations of >0.1% by weight.

The list of substances can be found at:

<https://echa.europa.eu/candidate-list-table>

It is our intention to fully comply with the legal requirements and to lead the way in our industry sector allowing a smooth transition to compliance and the minimum disruption to our customers.

Following the publication of the so called 'candidate list' (Article 59 REACH) on 28th October 2008, and subsequent amendments (latest version added 4 new substances equalling 205 substances as of the 16 January 2020) we are obliged to inform recipients of our products of the presence of Substances of Very High Concern (SVHC) included in the candidate list above a concentration of 0.1% weight by weight (w/w). We also must provide recipients with sufficient information to allow safe use, including, as a minimum, the name of the substance.

### Restricted Materials

Quantity limit 0.1% by weight (1000 ppm) of any homogeneous material:

1. Lead (Pb)
2. Mercury (Hg)
3. Hexavalent Chromium (Cr-VI)
4. Flame Retardants Polybrominated Biphenyls (PBB) and Polybrominated Diphenyl Ethers (PBDE)
5. Bis(2-Ethylhexyl) phthalate (DEHP)
6. Benzyl butyl phthalate (BBP)
7. Dibutyl phthalate (DBP)
8. Diisobutyl phthalate (DIBP)
9. 205 substances in Candidate List (Article 59 REACH, Annex XIV)

Having carried out investigations into our products and processes we are confident that the products that we supply to you contain no materials that are of 'high concern'.
