

Product Change Notification

Notification Date: March 23, 2020

Product Change Notification

Number: 1119

Affected Part Numbers: OPR2100, OPR2100T, OPR2100HST

Description of Change: The ground plane on the bottom side of the device is currently covered by a black soldermask and an inked part number / date code marking. The ground plane will now be covered by white ink only. The part number and date code marking will be located on the substrate, between the ground plane and the contacts. For space availability reasons, the Optek logo will no longer be marked on the part.

Change Identification: Date Code 2015 (15th week of year 2020)

Reason for Change: This change to the previous process will reduce the thickness of the ground plane covering and eliminate soldering contact issues caused by the thickness of the soldermask/ink layer.

Expected Impact: None

Implementation of Change: March 23, 2020

Cessation of Present Process: Immediate

Assessment: A dimensional change report will become available by 4/10/2020.
