## California Proposition 65 Compliance Statement

Dear Valued Customer,

TT Electronics-IRC is committed to comply with regulatory compliance efforts and continue to monitor potential safety, health and environmental impact of our products. We work with our suppliers to monitor impact on chemicals, preparations and articles supplied to us that are used to make our products that will meet California Proposition 65 standards.

California Proposition 65, known as the Safe Drinking Water and Toxic Enforcement Act of 1986, establishes a list of chemicals which the state of California's risk assessment process has determined to present a risk of cancer, birth defects or other reproductive harm. It is also to inform citizens about exposure to such chemicals.

All standard fixed resistor products manufactured by TT Electronics-IRC, including associated packaging materials do not require a California Proposition 65 warning label.

**Important note:** lead and lead free versions of our devices are available. Customers are required to request lead free terminations in order to meet Proposition 65 requirements.

A handwritten signature in black ink, appearing to read 'Joe Alvirde', with a horizontal line extending to the right from the end of the signature.
