

Industrial Electronics

Providing Global Advantages in Competitive Markets

Partnered with many of the world's leading industrial and commercial brands, TT Electronics Integrated Manufacturing Services (IMS) is the industry leader for providing low volume, high mix electronics manufacturing solutions. Delivering unmatched precision and reliability at a competitive price, we understand the level of ambition required and the manufacturing and supply chain agility necessary to succeed in today's competitive global climate. Through our extensive manufacturing expertise, we specialize in design, electronics assembly, system integration and fulfillment services, ensuring the fastest time to market.

IMS cares for its customers and provides local support representatives throughout the world. With a global footprint spanning three continents, we're able to support our customers with a program manager who serves as a local point of contact and facilitates seamless communications throughout your organization, while leveraging in-country sourcing and low-cost global manufacturing services.

When being the first to market is a requirement, IMS is your ideal business partner. We understand that industrial products have long product lives and a strong dependence on rapid new product introductions. Our engineering services coupled with an intense focus on integrated solutions have made us the perfect fit for Industrial customers for over 30 years.

IMS also offers customized turnkey solutions in all service areas including full life cycle management engineering services, optimized manufacturing models and robust supply chain models specifically designed to meet customers' unique needs.

About TT Electronics Integrated Manufacturing Services

TT Electronics Integrated Manufacturing Services (IMS), a wholly owned subsidiary of TT Electronics plc, specializes in low volume, high mix electronics manufacturing services for the aerospace, defense, industrial, medical and rail industries. With manufacturing locations in North America, Europe and Asia, IMS provides high complexity electronics and electromechanical assemblies for regional and global manufacturing companies. With a reputation for quality, engineering, testing and integration, IMS provides every customer with personalized business solutions and global buying power.

Examples of Product Experience

- Semiconductor Manufacturing and Test Equipment
- Controls - Motion, Process, Building
- Power - Management Systems, Controls, Supplies, Generation
- Test and Measurement Equipment
- Semiconductor Manufacturing and Test Equipment
- Identification and Tracking Systems - RFID, Barcode, GPS
- Utilities Monitoring and Automated Meter Reading Equipment

Core Competencies

- Design and development engineering
- SMT and THT printed circuit board assembly
- Backplane assembly
- Integration and box-build services
- Conformal coatings, pottings & encapsulations
- Cable harness assembly

Related Certifications*

- ISO 9001
- ISO 14001
- UL Cable Approval
- IPC-A-610D
- J-STD-001
